FFA Convention

On November 1st-3rd, 9 members of the FFA traveled to Indianapolis to attend the 96th National FFA Convention and Expo. At the convention, the members attended leadership workshops, networked with other FFA members and agricultural businesses and colleges. Along the way, they made many memories and ate really good food. The students had a blast.

Nurse's Note

November is Epilepsy Awareness Month

Do you know how to recognize and respond if someone is having a seizure?

There are several types of seizures, each with different symptoms. One type of seizure, called absence or petit mal seizures, is where the person just stares off into space while another type, called grand mal or tonic-clonic, is where the person will often lose consciousness and have violent muscle contractions.

If someone is having a grand mal seizure do the following things:

- 1) ease the person to the ground
- 2) note the time the seizure started
- 3) turn the person gently onto one side
- 4) clear the area around the person of anything hard or sharp
- 5) put something soft and flat, like a sweatshirt, under the person's head
- 6) stay with the person until he/she regains consciousness
- 7) note the time the seizure ended
